MOVIE IN ETSU

On Wednesday October 3rd at 5:30 PM the ETSU Department of Sustainability and Citizens' Climate Lobby of Northeast Tennessee will host a screening of

"Happening: A Clean Energy Revolution" in the Brown Hall Auditorium. There will be a meet and greet with light snacks at 5:30 PM before the movie with a moderated discussion panel immediately following.

Brown Hall is on the ETSU campus directly East of the Mini-dome. No permit is needed to park anywhere on campus after 4:00 PM and the new parking garage will also be open for parking.

"Filmmaker James Redford embarks on a colorful personal journey into the dawn of the clean energy era as it creates jobs, turns profits, and makes communities stronger and healthier across the US. Unlikely entrepreneurs in communities from Georgetown, TX to Buffalo, NY reveal pioneering clean energy solutions while James' discovery of how clean energy works, and what it means at a personal level, becomes the audiences' discovery too. Reaching well beyond a great story of technology and innovation, "Happening" explores issues of human resilience, social justice, embracing the future, and finding hope for our survival."
